# The BioFit Advantage

# Healthcare Applications

**Our Customer:** A leading global medical technology company offers innovative products and services for orthopedic, medical and surgical applications. The firm's Michigan operation houses workstations for the assembly of small handheld medical instruments. Technicians sit at benches creating products that enhance patient care. The company places a high value on its employees and their health and safety.

**The Challenge:** The firm needed to replace older (15+ years) BioFit task chairs that, while still functional, were considered small by current standards. Ergonomics was an important consideration to help the technicians maintain ideal postures and reduce the potential for repetitive motion injuries while aiding performance in the accomplishment of particular tasks. According to a study by the Bureau of Labor Statistics, repetitive motion, such as grasping tools, result in the longest absences from work — 23 days.<sup>1</sup>

## The Advantages: By the Numbers

**1** — Three BioFit seating solutions were offered as replacement options: BioFit MVMT Pro Series, BioFit MVMT Tech Series and the BioFit Elite Series.

**2** — Over 80 employees who would be using the chairs evaluated the choices.

**3** — The chosen BioFit MVMT Tech Series chair offered an ideal combination of ergonomic design, easily operated controls, task-specific range of motion and 24/7/365-day use.

Other considerations in the seating choice included the easy cleanability and the use of MVMT resistance glides to increase safety. BioFit installed over 175 MVMT Tech Series chairs to meet the customer's requirements.

## BioFit Customer Advantage

BioFit's focus every day is to improve the workplace experience through ergonomic performance, comfort, style and reliability.

**Leading the Industry in Technical Seating—Your ergonomics seating solutions source:** Identified by a majority of the top 50 experts in the ESD and clean room industry as the source for technically superior seating solutions.

**Product Advantages—Lowers cost of ownership:** Nearly all BioFit products are warranted to the original purchaser against mechanical or structural failure due to defective material or workmanship for 13 years of normal, multi-shift use. Pneumatic cylinders are covered for the functional lifetime of the chair or stool.

**Supply Chain—Higher customer satisfaction:** No-surprise delivered prices – ground freight to lower 48 states included on all orders over \$3,500 list pricing.

**Value-added Services—Assure you get the seating solution you need:** Due to the modular construction of our products, users can use the Build Your Own Chair seating configurator to create, request a quote and order seating for their unique requirements, right from their smartphone. Plus, BioFit offers a 30-day “try before you buy” sample program, allowing customers to field-test seating at their location.

**More Than Seating—BioFit Tables & Carts:** BioFit manufactures a full line of mobile folding tables, cafeteria tables and multipurpose carts.
