

# THE R-GO MOTORIZED PLATFORM

## DISTINCTIVE FEATURES

- For effortless transportation of heavy loads
- Designed to accommodate a toolbox <sup>1</sup>
- Helps prevent musculoskeletal disorders (MSDs)
- Stops instantly thanks to electromagnetic brakes
- Three maximum speeds
- Easy to use
- Made in North America

EASILY INSTALL YOUR TOOLBOX  
ON THE PLATFORM WITH THE INCLUDED  
ANCHORING ZONES <sup>1</sup>

CP-1HE0001B

# THE R-GO MOTORIZED PLATFORM

## IDEAL FOR A RANGE OF ENVIRONMENTS

### TRANSPORT EQUIPMENT EFFORTLESSLY

### MOTORIZED YOUR TOOLBOX

### MOVE ITEMS EFFICIENTLY

The R-Go Motorized Platform has been specially designed to safely transport heavy loads over long distances. Built to the highest quality standards, the R-Go Platform boasts superior durability and motor reliability. The motor can run for 20km/12.5 miles on battery. The premium-quality, ultra-quiet casters significantly dampen vibrations and provide high-performance rolling. Upon releasing the handle, the electromagnetic brakes stop the toolbox immediately on both flat and sloped surfaces. The large non-slip surface also keeps any item securely in place during transportation.

## HELPS PREVENT MUSCULOSKELETAL DISORDERS (MSDS)

The R-Go Motorized Platform has anchoring zones for rapid and secure installation of a toolbox. This means you can motorize your existing R toolbox.

With Rousseau's R-Go Motorized Platform, you boost your efficiency without compromising on safety and security. When considering monetary and human costs – as well as the short-, medium- and long-term effects of MSDs – a motorized platform is a wise choice.

- The motorized platform can climb slopes of up to 6°.
- This is equivalent to a ratio of about 1 in 10 (vertical : horizontal).

## USABLE SPACE

The specified width and depth correspond to the platform's usable space. For the actual width, add 2" (e.g., 36"W + 2"W = 38"W).

**SPECIFICATIONS**

**ROTATE THE HANDLE FORWARD TO MOVE FORWARD AND BACK TO REVERSE**

- Instant motion and stop
- 5.5km/h (3.4mph) maximum speed
- 3 selectable speeds:

**USB PORT**  
USB port (2 amps)

**BATTERY**

- Battery life indicator
- Up to 20km/12.5 miles on battery
- Approximate charging time: 10h

**ANCHORING ZONES <sup>1</sup>**

**CORNER BUMPER**  
Protects the platform from bumps and damage

**6" WHEELS**  
Ultra-quiet and easy to maneuver

**NON-SLIP SURFACE**

**8" DRIVE WHEELS**  
Non-marking rubber filled with polyurethane foam

NOTES: <sup>1</sup> Designed for Rousseau R toolboxes and cabinets.  
<sup>2</sup> The product number includes the platform but excludes the cabinet.
